

2004 Dresden Workshop on HMM

A workshop on the History of MMS was held at Kustodie of Dresden Technical University on October 6-8, 2004 within the activity of the IFToMM Permanent Commission for History of MMS. The Workshop was organized under the Coordination of Scientific Chair Dr. Hanfried Kerle (Technical University of Braunschweig), Dr. Klaus Mauersberger (Kustodie at Dresden Technical University) and Professor Marco Ceccarelli (University of Cassino, PC Vice-Chair for Workshops on HMM), and with the Local Organization of Professor Karl-Heinz Modler (Chair of TMM at Dresden Technical University). The meeting was organized for facilitating presentation of unpublished material, discussion and promotion of interest on historical subjects on machines and mechanisms (HMM). Ten lectures, each of duration of about 30 minutes, were presented concerning with the historical material in design developments and theory evolutions of TMM. Participants are listed in the citation of the enclosed photo. The local organizers also offered very interesting guided tours through the exhibitions “Collections and History of Engineering Education – especially in TMM” in the Kustodie and “Collection of Mechanism Models” of the Institut für Festkörpermechanik. A specific visit was held in the “Mathematisch-physikalischer Salon” of the Zwinger too.

Participants at the 2004 Dresden Workshop on HMM: (from left to the right) Prof. Karl-Heinz Modler (Germany), Prof. Marco Ceccarelli (Italy), Prof. Kurt Luck (Germany), Prof. Alexander Golovin (Russia), Prof. Hong-Sen Yan (China-Taipei), Prof. Francis Moon (U.S.A.), Prof. Teun Koetsier (The Netherlands), Prof. Carlos Lopez-Cajùn (Mexico), Prof. Rudolf Neumann (Germany), Dr. Klaus Mauersberger (Germany), Prof. Burkhard Corves (Germany), Dr. Hanfried Kerle (Germany); (not in the photo) Prof. Baichun Zhang (China-Baijing), Dr. Peter Pläßmeyer (Germany).
