

## 2005 Moscow Workshop on HMM

A workshop on the History of MMS was held at Bauman State Technical University in Moscow (BMSTU), Russia, on May 17-19, 2005 during the celebrations for the 175<sup>th</sup> anniversary of Bauman University, but within the activity of the IFToMM Permanent Commission for History of MMS. The Workshop was organized under the Coordination of the Scientific Chair Professor Alexander Golovin (Bauman State Technical University), and Professor Marco Ceccarelli (University of Cassino, PC Vice-Chairman for workshops on HMM). The meeting was organized for facilitating the presentation of unpublished material, discussion and promotion of interest on the historical subjects on machines and mechanisms (HMM). Twenty-two lectures, each with duration of about 30 minutes, were presented concerning with the historical material in design developments and theory evolutions of MMS from Russian country and world scenario. Participants are listed in the citation of the enclosed photo. The local organizers also offered very interesting guided tours through the exhibitions “Collections and History of Engineering– especially in TMM” in the Laboratory of TMM at Bauman State Technical University. A specific visit was held to the “Technical Museum” of the Bauman State Technical University in Moscow.
